

First bus initial install date of April 2008. Monitored light depreciation of less than 5% since original install.

Partial fleet retrofit started in August, 2011 for 57 STC diesel buses and 188 VTC diesel trolleys. When tested against the previous fluorescent tubes installed in the bus, LED Smarts bus lighting system matched or exceeded previous fluorescent lighting levels.

Customer: Coast Mountain Bus Co.

Location: Vancouver, BC, Canada

Initial Install Date: April 2008
